LANTMÄTERIET

Our geodata is being available

Lantmäteriet now offers free access to some of our geodata since we believe this is of benefit to society.

We have released:

- Road Map
- Terrain Map
- Mountain Map
- Nationwide real-time service for measuring and positioning with accuracy down to one metre.

LANTMÄTERIET

3-D maps and elevation model

- In the process of building up a nationwide landscape model in 3-D

Already accomplished:

- Elevation model
- Map data
- Aerial photographs and the tools needed to create a national product

Missing:

- Process for the continuous updating of information in 3-D
- The development of the IT systems

LANTMÄTERIET

Broadband

Goal for 2020: 90% of all households and companies should have access to high capacity broadband

LANTMÄTERIET

Export of services

Prioritised areas are:

- Democracy and human rights
- Environment and climate change
- Gender equality
